

Snake Attack

Shhh... There are snakes in the jungle infecting humans. Will people manage to avoid the snakes and protect themselves?

3+

6+

Smart-Sleeves

Getting started

- ✖ Put the helper cards or Smartsleeves on the playing field.
- ✖ You can choose how many cards you want to use.
 - Tip: The game is harder with fewer cards that are spaced farther apart.

Rules of the game

- ✖ When the game starts, one player becomes the snake.
- ✖ All the other players are regular players.
- ✖ The snake tries to tag the regular players.
- ✖ If the snake tags you, you slowly start turning into a snake!
- ✖ To stop from turning into a snake, you need to quickly find the antidote! The antidote is hidden on the cards.
- ✖ Scan a card.

- ✕ Did you find the antidote? Great! You're healed and you're a regular player again.
- ✕ Didn't find the antidote? Uh oh! Quickly find another card and scan it.
 - Remember: the antidote moves around during the game. It won't always be on the same cards!
- ✕ If you don't find the antidote in time, you'll turn into a snake. Now you can tag regular players!

End of the game

- ✕ If all the players become snakes before the game ends, the snakes win!
- ✕ If there are still regular players when the game ends, the regular players win!

Colors and interaction

Snake:

 *Blinking green-yellow*
timeout. You can't tag anyone yet

 *Green-yellow + buzz*
you can tag other players

Regular player:

 *Blue*
you haven't been tagged yet

 *Purple + buzz*
you've been tagged. Find the antidote!

 *Fast blinking red + incorrect sound*
the antidote isn't on this card. Keep looking
