

Kaleidoscope

Scan the colors in the order the Picoo shows. Can you manage to memorize an increasingly longer color sequence!

Smart-sleeves

Getting started

- ✖ Have at least one Smartsleeve in each color (red, green, yellow, blue) ready. The number on the cards doesn't matter.
- ✖ Distribute the cards around the play area.

How to Play

- ✖ Your controller will show you a sequence of colors.
- ✖ Look carefully and try to remember the colors and the order they're in.
- ✖ Now, find the cards with the same colors and scan them in the same order.
- ✖ If you get all the colors right, you'll go to the next level.
 - The next level has more colors to remember!
- ✖ If you make a mistake, you'll go back to an easier level.

End of the game

- ✕ You win the game when you can remember and scan 20 colors in a row.

Colors and interaction

Red, green, blue, yellow + buzz + beep
these are the colors you need to find

Purple + buzz
start scanning the sequence

White + buzz + correct sound
you got the whole sequence right!

White + buzz + incorrect sound
oops! Try again

Beep + buzz
you got that color right!
