Getting started

- ✕ Spread at least one helper card of each color across the playing field. It doesn't matter what numbers these are. The yellow card is the pancake batter and the red, green and blue cards are pans.

Rules of the game

- ✕ The aim of the game is to fill three pans with mixed pancake batter as quickly as possible.
- ✕ Take batter to mix. To do this, scan the yellow card and shake the Picoo controller back and forth. The Picoo controller will indicate when you're done mixing.
- ✕ Next, pour the batter into a pan. To do this, scan a red, blue, or green helper card and then hold the Picoo upside down until the Picoo controller indicates that all the batter has fallen into the pan.

- ✕ Repeat collecting, mixing and pouring batter into the pan until you have filled three different pans. Scan a different pan each time.

End of the game

- ✕ The game is over when each player has filled three different pans. The player who does this the fastest wins.
