

Click Clack Count

In this game, children practice recognizing numbers. Count how many times the Picoo controller beeps and flashes and scan the correct number.

Smart-sleeves

Preparation

- ✕ Have Smartsleeves 1 through 8 ready.

How to Play

- ✕ Start the game.
- ✕ The Picoo controller will blink and beep. Count how many times it blinks and beeps.
- ✕ Find and scan the card with the same number as the number of times you counted.
- ✕ If your answer is correct, the controller turns green and makes a happy sound. Then, the Picoo controller will blink and beep a new number of times.

- ✖ If your answer is wrong, the controller turns red and makes a ‘whoops’ sound. It will then blink and beep the same number of times again to give you another try.

End of the game

- ✖ The game ends after five correct answers.

Colors and interaction

- *Blue blinking + beeps*
this tells you the number to count
- *Purple*
time to find and scan a helper card!
- *Green + correct sound*
that’s right!
- *Red + incorrect sound*
try again
