# Traffic Light

*Who will be the first to reach the other side of the street? Be careful not to cross when the light is red, or you won't be allowed to cross anymore!*

1-50

4+

1 Smartsleeves

## Getting started

- Grab a few Smartsleeves. It doesn't matter how many. You'll be using them as the start and finish lines later on.
- Decide where the start and finish lines will be. Make sure that there is enough space between the two lines so that players can run properly.
- Place the red and yellow Smartsleeves on the start line.
- Place the blue and green Smartsleeves on the finish line.
- Gather all the players together at the start line.
- Start the game.

## How to play

- The aim is to reach the finish line without getting eliminated.
- Go to the start line and wait for the start signal.
- Start running when your controller turns green.
- Stop as soon as your controller turns red.

  **Note:** the controller will blink orange just before it turns red. This is your cue to start slowing down.

- If you move when your controller is red, then you're out.
- If that happens, hurry back to the start line and scan one of the cards. Then you can join the game again.

## End of the game

- The game ends automatically as soon as half the players have crossed the finish line.

## Colours and interactions

**White + countdown sound**
the game is about to start.

**Green**
you can run.

**Blinking orange**
you should almost be standing still.

**Red**
you must be standing still.

**Beep**
the controller has changed colours.

**White + sound**
you moved when you were supposed to be standing still. You're out and need to start over again.
