Smart-
sleeves

Getting started

- ✖ Use one of the Picoo quizzes or create a quiz yourself, in which combinations of three belong together.
- ✖ Put the quiz cards in the Smartsleeves. Look on the back of each card to see which Smartsleeve it goes in.
- ✖ Spread the Smartsleeves out in the playing area.
- ✖ Start the game.
- ✖ Scan the next unused Smartsleeve. If you use all Smartsleeves, press the button twice.
 - **Example 1:** If you have 3 combinations, that's 9 Smartsleeves. Scan Smartsleeve number 10.
 - **Example 2:** If you have 8 combinations, that's 24 Smartsleeves. Press the button twice.

How to Play

- ✕ Find all the matching sets before the other team to win!
- ✕ The game will put you on one of two teams.
- ✕ You will take turns trying to find a match.
- ✕ Wait until your Picoo controller blinks purple. That means it's your turn.
- ✕ Find and scan a Smartsleeve.
- ✕ Now find and scan the two Smartsleeves that match.
- ✕ If you make a mistake, keep looking for the right answer.
- ✕ Once someone finds a match, the round is over.
 - You can't scan a set that has already been matched.
- ✕ Talk with your team to remember which sets have already been matched.

End of the game

- ✕ The first team to find all the matching sets wins!

Colors and interaction

-  *Slow blinking blue*
start the game with the game card
-  *Blue*
set the number of combinations, see example
-  *Slowly blinking purple*
scan a Smartsleeve

Purple

scan the matching Smartsleeve

Fast blinking blue + buzz + beep

you scanned the first card in the set again

Blinking green + buzz + correct sound

that's right, you found a match!

Blinking red + buzz + incorrect sound

not quite right, try again

Blinking white + buzz + incorrect sound

you already found that match
