

Spot On

Who can spot the number of colors the fastest? Test your concentration and reaction speed in this hilarious game!

2+

6+

Smart-
sleeves

Getting started

- ✕ Place the Smartsleeves close together in the middle of the play area. It doesn't matter how many cards there are, or what color or number is on them.
 - Suggestion: use one card per two players.
- ✕ Have the players stand in a circle.
- ✕ Make sure everyone can see each other's controllers.

How to Play

- ✕ This game is all about paying attention and being super fast by matching colors.
- ✕ Wait for the Picoo controllers to show a color.
- ✕ Count how many controllers have the same color.

- ✕ Do the right number of controllers (see the chart) have the same color? Scan a card, fast! It doesn't matter which card you scan.
- ✕ The first person to scan a card gets a point.
- ✕ You can scan, even if your controller is a different color.
- ✕ Once someone scans a card, get ready for the next round!

End of the game

- ✕ The game stops after eight rounds.
- ✕ The player with the most points wins the game.

Colors and interaction

- ☐ *White*
start of game and round
- ☒ *Green blinking + correct sound*
you get a point
- ☐ *Red blinking*
another player gets a point

Number of players	Number of controllers with the same color
2 - 4	2
5 - 8	3
9 - 12	4
13 - 16	5
17 - 20	6
21 - 24	7
