

## Flip over!

*Find the right pairs! Flip, scan... yes, a match! In Flip Over!, you race as a team across the playing field, hunting for hidden pairs.*

2+

4+

**Smart-  
sleeves**

### Getting started

- ✖ Use one of the Picoo quizzes or create and print your own quiz. Make sure the quiz contains pairs of items that go together.
- ✖ Place the quiz cards in the corresponding SmartSleeves. The back of each quiz card shows which SmartSleeve the card belongs with.
- ✖ Scatter the filled SmartSleeves across the playing area. Place them face down, so that you can't see the pictures.
- ✖ Start the game. The controller that you use to scan the game card becomes the play maker controller.
- ✖ Scan the next unused SmartSleeve using the play maker controller. If you are using all of the SmartSleeves, press the button on the play maker controller twice.

- **Example 1:** You have 3 combinations, so you have placed 6 SmartSleeves in the playing area. Scan SmartSleeve 7.
- **Example 2:** You have 12 combinations, so you have placed 24 SmartSleeves in the playing area. Press the button twice.

## How to play

- ✕ The player whose turn it is chooses a card, scans it and flips it over.
- ✕ Do you think you know where the matching card is? Scan that card. Then flip the card over.
- ✕ Is it a matching pair?
  - Yes: The next player from the same team can choose a new pair. You can remove the matching pair or leave it in the playing area.
  - No: Flip the cards back over. It is now the other team's turn.
  - Caution: You have 30 seconds to find a combination. Can't manage it in time? Then you lose your turn.

## End of the game

- ✕ The game ends as soon as you have found the agreed number of pairs as a team.
- ✕ The team with the most correct pairs wins the game!

## Colours and interactions

*Team colour*  
wait for your turn

*Slow purple blinking*  
your turn

*Solid purple + buzz + sound*  
scan the second card

*Green blinking + buzz + sound*  
it is a correct match

*Red blinking + buzz + sound*  
incorrect match

*White blinking + buzz + sound*  
you have already had this pair

*Blue blinking + buzz + sound*  
you have already scanned this card
