

Professor Peek

Become a real researcher! Gather the right materials, mix them well, and bring them back to your base. Which team will create the most perfect mixtures?

2-24

8+

Smart-
sleeves

Getting started

- ✕ Fill the SmartSleeves with the printed cards from this game.

How to play

- ✕ Players are automatically divided into teams of 2 or 3. Your controller shows your team colour.
- ✕ Go with your team to the SmartSleeve that's the same colour as your team. This is your home base. Scan the SmartSleeve.
- ✕ Your controller will now display a colour or combination of colours. Find and scan the SmartSleeve(s) in this colour or colour combination.
- ✕ Your controller will display a second colour or combination of colours. Find and scan the SmartSleeve(s) in this colour or colour combination.

- ✖ Have you successfully completed both tasks?
Then scan your home base.
- ✖ Does your controller display rainbow colours? Then
you need to mix your substances together. Shake your
controller back and forth until the rainbow colours
disappear.
- ✖ Has your controller lit up in green?
Then you don't need to mix your substances.
- ✖ Once everyone on your team has collected and
mixed the correct substances, your team will be
awarded a point.
- ✖ You can now carry on with a new task.

End of the game

- ✖ The team that has scored the most points by the
end of the game wins!

Colours and interactions

Team color, blinking slowly
you are part of this team
